

# Product Backlog – *ECaMS Billboard Introduction*

Scrum Master: Nicholas Jones

Product Backlog:

| ID      | User Story / Task                                                                                                                              | Priority (1-10) | Estimate (SP) | Spike (Y/N) | Status | Assigned |
|---------|------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|---------------|-------------|--------|----------|
| RC-085  | As a user I want to see the slides on the kiosk without a developer manually refreshing it.                                                    | 10              | 4             | N           | Done   | Ryan     |
| RC-086  | As a user I want to see the correct month on the website.                                                                                      | 8               | 2             | N           | Done   | Fawz     |
| RC-078  | As a user, I want to see what Professor Klump has written on the ECAMS Newsletter without having to pull up my email.                          | 8               | 3             | N           | Done   | Nicholas |
| RC-080  | As a user, I want to see what's New at Lewis without having to pull up my email.                                                               | 8               | 4             | N           | Done   | Nicholas |
| RC-077  | As a developer I want to clean up our CI/CD pipeline so it doesn't look like every deployment is failing.                                      | 7               | 3             | Y           | Done   | Fawz     |
| RC-082  | As a user I want slides to have an expiration date so that users won't see events that are already over.                                       | 6               | 8             | N           | Done   | Ryan     |
| RC-083  | As a user, I want to be able to look up the number of a building by searching for the name at the bottom of the campus map to find my classes. | 6               | 2             | N           | Done   | Nicholas |
| RC-081  | As a user, I want the campus map to have a higher resolution than what it is now.                                                              | 5               | 1             | N           | Done   | Nicholas |
| RC-071A | As a user, I want the QR code to link me to the correct site                                                                                   | 5               | 1             | N           | Done   | Juno     |
| RC-058  | When submitting a poster, have a field to include date and time                                                                                | 4               | 6             | N           | Ready  | Juno     |

| ID      | User Story / Task                                                                                                                       | Priority<br>(1-10) | Estimate<br>(SP) | Spike<br>(Y/N) | Status | Assigned |
|---------|-----------------------------------------------------------------------------------------------------------------------------------------|--------------------|------------------|----------------|--------|----------|
| RC-087  | As a user, I want to be able to give feedback to the current team in charge of the billboard in an easily accessible manner.            | 4                  | 3                | N              | Done   | Juno     |
| RC-039  | As a Scrum Master, I want to facilitate Sprint Planning and story commitment so that I can help the team work with focus and alignment. | 3                  | 3                | Y              | Done   | Nicholas |
| RC-071B | As a user, I want the QR code to be fully visible and usable when displayed on the physical billboard                                   | 3                  | 2                | N              | Done   | Juno     |
| RC-060  | As product owner, coordinate Product Backlog grooming and Sprint Planning across product teams                                          | 2                  | 2                | N              | Done   | Ryan     |
| RC-079  | As a user, I want to see an automatic rotational calendar that will be updated every single month.                                      | 1                  | 10               | N              | Done   | Fawz     |
